Attention: Captain C. Beard

From: **DEPARTMENT OF CALIFORNIA HIGHWAY PATROL**
Office of the Assistant Commissioner, Inspector General

File No.: 005.9968.A7146.010

Subject: 2009 COMMAND PROPERTY INSPECTION REPORT

In accordance with procedures outlined in Highway Patrol Manual (HPM) 11.2, Materials Management Manual, and HPM 22.1, Command Inspections Program Manual, an inspection of your command's property, including vehicles and weapons, was completed by the Property Inspector (PI) on May 4 – 6, 2009. Using property records from the appropriate Offices of Primary Interest (OPI), the PI selected a random statistically-valid sample of property that was stratified across four property areas: general inventory control, telecommunications, fleet, and weapons (see Attachments B, C, D, and E). Additionally, the PI chose items within your command and compared them to the appropriate inventory records.

When comparing equipment recorded on the predetermined property inspection list to equipment located at the command, seventy-seven of the eighty-nine items were located. Seven items were unavailable for inspection due to employees being out of the office, three items could not be located because they had been transferred to other commands, and two items (Scanner and Control Head – Motorcycle) could not be located. Furthermore, two of the seventy-seven items require a correction be made to the property record and one item was noted to be missing a decal. The property inspection results of the equipment recorded on the predetermined property inventory list to equipment located at the command are summarized in Attachment A.

Note: Eight additional items were selected as replacements for the unavailable items on the predetermined property inspection list. Seven of the eight items reconciled and one item was unavailable for inspection due to employee being out of the office.

When comparing equipment located at the command to the OPI inventory list, one hundred thirty-one of the one hundred forty-five items reconciled. Four items were not listed on the appropriate OPI inventory lists, and ten items require a correction to the property record. The property inspection results of equipment located at the command to the OPI inventory list are summarized in Attachment A.

I request your command research and investigate all discrepancies in accordance with departmental procedures outlined in HPM 11.2, Materials Management Manual, Chapter 8, Equipment, and work with the appropriate OPI(s) to rectify any variances. A Physical Inventory Adjustment Request, CHP 24, must be completed to adjust the inventory records. In order to verify that the above listed discrepancies have been rectified, please submit a memorandum to the Office of Inspections through your respective Division by October 6, 2009.

The Office of Inspections would like to thank your command for their assistance during this property inspection. If you have any questions or need additional information, please contact me or Roger Ikemoto, Senior Management Auditor at (916) 843-3160.
